

HYDROCARBON TREATMENT

LIQUID CONCENTRATE

SCE Bio Hydrocarbon

Treatment Liquid Concentrate is a completely natural, liquid blend of naturally occurring and specifically selected formulated to bio-remediate all factions of crude or modified petroleum products and paraffin wax. The anaerobic microbial cultures in the liquid concentrate will continue enzyme production until almost all oil contaminant's and other organic wastes are consumed.

When using Hydrocarbon Treatment, there is no need to worry about affecting the surrounding environment. If preferred, Hydrocarbon Treatment is also available in solid and granular form.

Integrating
biotechnology
for a greener
world.

Benefits

- Natural oil-water separator
- Reduces soil contamination
- No toxic chemicals needed
- Easy-to-use instructions
- Allows for revegation of contaminated areas
- Hydrocarbon Treatment is also available in liquid, solid and granular form
